

Remarks

The Examiner's attention is directed to the submitted formal drawings which, except for minor changes in Fig. 1, are the same as the informal drawings which accompanied the application.

In the drawings, claims, and specification the word "drug" has been changed to "medication" for consistency and to cover the scope intended by the invention (see Field of the Invention).

Typographical errors and inadvertent inconsistencies have also been amended to facilitate examination.

Respectfully submitted,

Robert E. Archibald
